1. INTRODUCTION

The Environmental Conservation Service (ECS) consists of three Directorates: Canadian Wildlife Service (CWS); Inland Waters Directorate (IWD); and Lands Directorate (LDS). This bibliography includes published and unpublished reports, technical papers, workshop proceedings, working papers, and other ECS LRTAP publications. The bibliography is arranged by directorate and by year, from the inception of LRTAP, in 1980, to 1984. It will be updated annually. Some of the 1985 references are listed.

The ECS LRTAP Program's largest contributor is IWD, followed by CWS, and LDS, respectively. This reflects both the size of the directorates and the main concentration of concern being placed on aquatic ecosystems. ECS spends approximately $4.6 million annually on LRTAP, of which IWD receives 63%, CWS 26%, and LDS 11%.

For further information on forthcoming publications, or requests for current literature, please contact the appropriate directorate LRTAP coordinator.

CWS LRTAP Coordinator - Kathleen Fischer
Canadian Wildlife Service
100 Gamelin Blvd.
Ottawa, Ontario
K1A 0H3
(819) 997-1410

IWD LRTAP Coordinator - Floyd C. Elder
Canada Centre for Inland Waters
P.O. Box 5050, 867 Lakeshore Road
Burlington, Ontario
L7R 4A6
(416) 637-4212/4288

LDS LRTAP Coordinator - Clay D.A. Rubec
Lands Directorate
Place Vincent Massey, 20th floor
Ottawa, Ontario

1. INTRODUCTION

Cette bibliographie regroupe l'ensemble des publications du programme TGDPA du Service de la conservation de l'environnement (SCE). Elle inclut tous les rapports, documents techniques, comptes-rendus des ateliers et autres documents de travail publiés et non-publiés.

Puisque le SCE comprend trois directions générales, le Service canadien de la faune (SCF), la Direction générale des eaux intérieures (DEI), et la Direction générale des terres (DTR), les titres sont disposés d'abord par direction générale, puis par année. La bibliographie couvre toutes les publications du Service de la conservation de l'environnement depuis la conception du programme TGDPA en 1980 jusqu'en 1984. Cette bibliographie sera mise à jour sur une base annuelle. Des références de 1985 sont listées.

La Direction générale des eaux intérieures est le principal participant au programme TGDPA, suivi du Service canadien de la faune et de la Direction générale des terres, respectivement. Ceci reflète, d'une part, l'importance de chaque direction générale et, d'autre part, l'emphase attribuée aux écosystèmes aquatiques. Le SCE décerne un budget annuel de $4,6 millions au programme TGDP, dont 63 % vont à la DEI, 26 % au SCF et 11 % à la DTR.

Pour de plus amples détails concernant les publications futures ou pour des requêtes de publications déjà parues, veuillez contacter le coordonnateur du programme TGDPA de la direction concernée.

SCF TGDPA Coordonnateur - Kathleen Fischer
Service canadien de la faune
100, boul. Gamelin
Ottawa (Ontario)
K1A 0H3
(819) 997-1410

DEI TGDPA Coordonnateur - Floyd C. Elder
Centre canadien des eaux intérieures
Case postale 5050, 867, chemin Lakeshore
Burlington (Ontario)
L7R 4A6
(416) 637-4212/4288

DTR TGDPA Coordonnateur - Clay D.A. Rubec
Direction générale des terres
Place Vincent Massey, 20ième étage
Ottawa (Ontario)
K1A 0E7
(819) 997-2320
